Introducing *Villa Soleil*, a stunning, rock-solid, steel and concrete constructed, 5 Bedroom 5 ½ Bath 5,000 square foot custom home. It is situated on 2 very private acres, completely fenced and with an electric gated entrance. Completed in 2008, this home was cut into the side of a steep traverse and features 3 full floors of Living space with a full water view of the Caribbean Sea! The open floor plan of the [massive] main level features Kitchen, Dining Room, 2 Courtyards, and 3 additional Living Spaces to enjoy the unparalleled water views. Ceilings throughout the home range from 10-14 feet high. One of the most unique features of this home is the Courtyards, which open up directly to the sky. Another unique feature is the Shutters throughout the home that open wide and truly make you feel as though you are one with nature. This is quite welcome considering the fact that the climate remains consistent year round, at around 80-85 degrees.

Each of the 4 spacious Bedrooms on the main 1st and 2nd levels have Built-In Closets, an equally spacious and unique Full Bathroom en suite, plus a Sitting Room that amplifies the stunning water views
